

Statement Coronavirus (COVID-19)

24.03.2020

Dear Sir or madam,

Due to the advancing spread of the coronavirus, we would like to show you the measures we have taken to reduce further spreading as effectively as possible:

- Extended personal hygiene and additional instructions for the employees of Etelser Käsewerk GmbH. Wich includes:
 - o Expansion of frequency and awareness of personal hygiene, especially hand disinfection and compliance with the minimum distance of 1.5-2.0m
 - o In case of fever and respiratory problems, employees are instructed not to come to work
 - o Reduction of social contacts to an absolute minimum, e.g. by increasing the distances in social rooms and closing the company canteen
 - o Staggered work in key positions to maintain operations
 - o Discontinuation of on-site customer service by field service
 - o Expansion of the home office workstations
- Following the recommendations of the World Health Organization (WHO), which include
 - o Reducing visitors to a necessary minimum
 - o Limiting movement for suppliers and customers

We hope that you will take similar steps to protect your employees in these unusual circumstances

Yours sincerely,

Jan Brüns, Management Etelser Käsewerk GmbH
